RE: 5-Alkyl Nicotines... USSN 250,188
PM 883 B Cont. D&O 79-30/I

Dear George:

The concensus is that no more experimental work is to be done in support of this application. That means according to your analysis that an appeal would have little prospect; we will not follow that course. If you think a response would gain anything at all, please file one; otherwise you may leave the final rejection to stand.

If we do not hear from you, we will assume you are dropping this.

Very truly yours,

Les

G. Esler Inskeep
